THINK GREEN!

WELCOME

Dear Members, Partners, and Friends:

Welcome to the 2016 New Mexico Association of Counties (NMAC) Legislative Conference! We extend a warm welcome to over 800 county elected officials, county employees, and state officials from throughout New Mexico. We encourage you to attend our affiliate meetings and to engage in conversation on issues facing counties today.

This is the Second Session of the 52nd New Mexico Legislature which is a 30-day session. We have invited the Governor, our congressional delegation, state elected officials, cabinet secretaries, and state legislators to attend the Legislative Breakfast session on Thursday morning.

We hope that you will be able to stop by the Roundhouse and visit with your state senators and representatives. Please encourage them to keep the counties in mind as they consider legislation this session.

For the first time, NMAC is hosting two symposiums on Wednesday morning. These educational sessions are designed to cover topics relevant to all county members—the legislative process and people with mental illness in jails.

To all our sponsors and exhibitors: THANK YOU for your support of NMAC and all 33 counties throughout the state! This conference would not be possible without the financial support you provide to NMAC and our members, and we know that county elected officials and employees value your products and services.

Sincerely,

Sharon Stover
NMAC President &
Los Alamos County Clerk

Steve Kopelman
NMAC Executive Director

LEGISLATIVE PRIORITIES

The following were selected as priorities by the NMAC Board of Directors for the 2016 session.

.....

Restore Detention Center Funding

Support an increase in the 2016 General Appropriations Act that would fund the County Detention Facilities Reimbursement Act at a level sufficient to reimburse counties for the actual cost of holding the three categories of prisoners specified under the Act.

.....

Support Funding for a Statewide Emergency Medical Services (EMS) Assessment

Support an appropriation to conduct a statewide EMS assessment through the New Mexico Department of Health EMS Bureau, in coordination with the State Fire Marshal, and reconvene the NMAC EMS Task Force, to develop additional policy recommendations regarding appropriate funding levels and mechanisms for recurring EMS services funding.

.....

Funding for the New Mexico 3D Elevation Program (3DEP) to Develop Light Detection and Ranging Technology (LiDAR)

Support legislation that would allocate funding to be used in collaboration with other federal, local, and tribal funds to match federal funding from the National 3D Elevation Program. LiDAR applications include watershed and water resource management, infrastructure planning and development, and precision agriculture and forestry management.

.....

Gross Receipts Tax Reform

Counties should partner with state government in any legislative efforts at gross receipts tax restructure and reform.
