

## Guadalupe County First With Facial Recognition

With onset risks associated with the COVID-19 pandemic, precautionary measures have been taken by Guadalupe County to ensure a safer work environment for its employees and visitors. The Kiosk, provided by Team 1st Technologies, has the ability to take an individual's temperature as they approach the machine and send an immediate alert to supervisors in the event that an elevated temperature is detected. The unit also utilizes facial recognition to ensure that employees and visitors are wearing masks before entering as well as

accountability. It also has a Remote Management system for Attendance Tracking and Reporting. This device could be utilized as a time clock of every employee with the face recognition. The OneScreen GoSafe total cost is \$23,685 for 10 units placed throughout county buildings, with free upgrades after a three-year subscription. Advanced hardware, replacement warranty ensures zero out of pocket costs and practically zero down time for the county. The county is working on policy.

**Don't...**

- Do not use personal devices for county business, unless specifically authorized to do so by IT.
- Do not use county devices for personal activities.  
For example: personal email, cloud storage, Dropbox, or social media
- Do not use chatrooms not authorized by the county.
- Do not download software county computer unless specifically authorized to do so by IT.
- Do not allow family members to use your county computer.

**Working Remotely  
Do's and Don'ts**

### NMC Loss Prevention Cybersecurity Webinar

What do cyber criminals want?

To steal information: SS number, DL number, CC/Debit card number, Passport number, Bank account information, Date of birth, Medical history, and more.

Leading causes of ransomware attacks:

- 1) Phishing Attacks
- 2) Ineffective Antivirus
- 3) Outdated/Unpatched

Consider password services, multi-factor authentication. Thank you Curry County IT Affiliate Chair Todd Ulses, presenters, and participants!

### "All Lands, All Neighbors for Wildfire Resilience"

Fire season is a challenging time let alone during the COVID-19 pandemic. Local governments, state and federal agencies, and nonprofit organizations that have a passion for fire prevention will host this virtual summit. Plan to attend these two half days of learning cohesive strategies in wildfire adaption and economic resiliency, preparedness, and planning.
