2021 American Rescue Plan Act and Bipartisan Infrastructure Law In New Mexico

Presented by Martin Chávez | Governor's Infrastructure Advisor

Message from the Governor

Major infrastructure funding has eluded Presidents of both parties for decades. Two major pieces of legislation were passed last year that set America on a course to catch up on badly needed infrastructure investments. First, the American Rescue Plan Act (ARPA) allowed states to recoup hundreds of millions of dollars paid out to New Mexicans impacted by COVID 19 and to address other critical needs. New Mexico's share was \$3.31 billion dollars. Second, President Biden signed the Bipartisan Infrastructure Law (BIL) that represents the greatest investment in infrastructure in decades. Under BIL, New Mexico will receive approximately \$3.8 billion dollars for roads, bridges, dams, broadband, and much more.

Why should Americans care? We know that we've been falling behind other developed nations when it comes to infrastructure. We also know that the return on investment for every dollar spent is at least three-fold, not to mention the great jobs that come with it. As your Governor, I'm committed to making sure that our infrastructure monies are spent wisely and in a way that will benefit all New Mexicans. Whether it's giving kids in rural New Mexico the opportunity to fully participate through broadband or making sure that drivers have first class safe roads or helping us into the future as electric vehicles become the norm in our efforts to address climate change, all New Mexicans will benefit from these new infrastructure opportunities.

Federal funding can be complicated but I'm committed to making sure that we have complete transparency as we work our way through these investments. This dashboard is our first attempt to make sure New Mexicans can access down to the dollar how these infrastructure dollars are spent. We're still early in the process but as we go forward, you'll be able to find out in the greatest detail possible what's going on with your tax dollars. It will also inform New Mexico communities about possible grant opportunities so that no good idea gets left behind.

I want to thank President Joseph Biden, Senators Martin Heinrich and Ben Ray Lujan and Representatives Teresa Leger-Fernandez and Melanie Stansbury for their hard work in making these tremendous infrastructure investments possible. Most of all, I want to thank you. This really is about all New Mexicans working together to make a better future for our children. Let's get started!

The Honorable Michelle Lujan Grisham, Governor

ARPA & Federal Funds Dashboard

"The largest investment in our nation's roads and bridges since the Eisenhower administration, this is no drop in the bucket – this is life-changing access to broadband for thousands of New Mexico families, transformative development of the electric vehicle framework, high-quality and fast-tracked infrastructure improvements adapted to a changing climate, and more" - Governor Lujan Grisham

- NM Highway 39 in Mosquero in Harding and San Miguel

What is the Bipartisan Infrastructure Law (BIL)?

• The Bipartisan Infrastructure Law (BIL) is a historic opportunity to repair the one-infive miles of our roadways and more than 45,000 bridges in the United States rated as "in poor condition." The law also contains funding to rebuild and reinvest in our railways, public transit infrastructure, and the safety of our transportation system. It further reauthorizes federal surface transportation programs for five years and invests billions in transformational projects that will create good-paying union jobs, grow the economy, and make our transportation system safer and more resilient.

• After decades of talk on rebuilding America's crumbling infrastructure, President Biden delivered the Bipartisan Infrastructure Law – a historic investment in America that will change people's lives for the better and get America moving again.

2021 Bipartisan Infrastructure law New Mexico

Roads/Bridges/EV

- \$2.5 billion over five years for federal-aid highway apportioned programs
- \$225 million over five years for bridge replacement and repairs
- At least \$366 million over five years to improve public transportation options across the state
- \$38 million over five years to support the expansion of an EV charging network in the state

Broadband/Cyber

- At least \$100 million to help provide broadband coverage across the state
- 785,000 New Mexicans (~38% of the state) will be eligible for the Affordability Connectivity Benefit, which will help lowincome families afford internet access
- \$13 million to protect against cyberattacks

Water/Fire/Airport

- More than \$300 million over five years to improve water infrastructure across the state
- \$38 million over five years to protect against wildfires
- Approximately \$90 million over five years for infrastructure development for airports

The bill also includes \$8 billion for regional clean hydrogen hubs across the country. In early 2022, New Mexico joined with Colorado, Utah and Wyoming to develop the Western Inter-State Hydrogen Hub to advance clean hydrogen across New Mexico and our partner states.
