Additional Requirements for Ground-Disturbing Activity	
If you are applying for a ground-disturbing demonstration project, the following information and additional signatures must be provided.	
This section to be filled out by BLM representative ONLY	
Biological Review and Signature	
Will animal or plant species proposed or listed under the Endangered Species Act (ESA) potentially be exposed to this project, or will proposed or designated critical habitat for a listed species be exposed to this project?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Unknown
If exposure will occur, potential impacts must be analyzed in a Biological Assessment (BA). The BA documents the potential impacts and the anticipated responses (e.g., none, injury, death, reduced reproductive success, reduced foraging success, abandoned the area, etc.) to any likely exposure.	
Was a Biological Assessment documenting the conclusions and the rationale for those conclusions regarding the project's effects on proposed or listed species and/or their critical habitat written for this project?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Unknown
Information on how to write a Biological Assessment, can be found at <i>Guidance for Preparing a Biological Assessment</i> , https://biologistshandbook.com . If your project will impact proposed or listed species, or proposed or designated critical habitat, ESA Section 7 determinations or findings must be provided in your BA. The ESA Section 7 determination for each species and/or critical habitat should be explicit and will generally be one of the following: 1) No effect; 2) May affect not likely to adversely affect; or 3) May affect, likely to adversely affect.	
Was ESA Section 7 Consultation (informal or formal) initiated with U.S. Fish and Wildlife Service (FWS)? *If yes, provide agency, contact and date of submission:	<input type="checkbox"/> Yes* <input type="checkbox"/> No <input type="checkbox"/> Unknown
