As you enter the world of supervision, there are a lot of things that change. There are expectations of you and your performance. This class will help you identify those things needed to be an effective supervisor/leader vs the ineffective manager. During this weeklong block of instruction, we go over several topics including organizational skills, leadership, supervising pursuits, character development, and dealing with difficult employees. This is a dynamic block of instruction and will immerse you in the world of supervision. Prepare for a lot of interaction and dialog discussing all facets of taking on that new responsibility.

Important: Certificates will be issued.
